Mark-up of Changes to Claims

Add new claims 25-48, as follows:

25. A method of managing a real estate unit from a remote location, such method comprising the steps of:

accessing a server from a remote location through a website of the server;

downloading a set of options regarding the managing of day-to-day operations directly related to use by an occupant of the real estate unit from the website to the remote location;

selecting at least one of the options;

uploading the selected option from the remote location to the server; and

executing the uploaded selected option by the server.

26. The method of managing the real estate unit as in claim 25 wherein the step of accessing the website further comprises transferring an identifier of a user to the server.

27. The method of managing the real estate unit as in claim 26 wherein the step of transmitting the identifier further comprises comparing the identifier with an

identifier of an authorized user and granting access to a set of files when a match is found.

28. The method of managing the real estate unit as in claim 27 further comprising uploading monetary data regarding the real estate unit from a designated financial institution to the server.

29. The method of managing the real estate unit as in claim 28 wherein the step of uploading the monetary data further comprises storing the monetary data in the set of files.

30. The method of managing the real estate unit as in claim 25 wherein the step of downloading a set of options further comprises providing a plurality of real estate unit identifiers as options of the set of options.

31. The method of managing the real estate unit as in claim 25 wherein the step of downloading a set of options further comprises providing a billing and cash entries selection for a real estate unit as an option of the set of options.

32. The method of managing the real estate unit as in claim 25 wherein the step of downloading a set of options further comprises providing a reports selection as an option of the set of options.

33. The method of managing the real estate unit as in claim 25 wherein the step of downloading a set of options

further comprises providing a utilities selection as an option of the set of options.

34. The method of managing the real estate unit as in claim 25 wherein the step of downloading a set of options further comprises providing a system selection as an option of the set of options.

35. Apparatus for managing a real estate unit from a remote location, such apparatus comprising:

_____ means for accessing a server from a remote location through a website of the server;

_____ means for downloading a set of options regarding the managing of day-to-day operations directly related to use by an occupant of the real estate unit from the website to the remote location;

_____ means for selecting at least one of the options;

_____ means for uploading the selected option from the remote location to the server; and

_____ means for executing the uploaded selected option by the server.

36. The apparatus for managing the real estate unit as in claim 35 wherein the means for accessing the website further comprises means for transferring an identifier of a user to the server.

37. The apparatus for managing the real estate unit as in claim 36 wherein the means for transmitting the identifier further comprises means for comparing the identifier with an identifier of an authorized user and granting access to a set of files when a match is found.

38. The apparatus for managing the real estate unit as in claim 37 further comprising means for uploading monetary receipt data from a designated financial institution to the server.

39. The apparatus for managing the real estate unit as in claim 38 wherein the means for uploading the monetary receipt data further comprises means for storing the monetary receipt data in the set of files.

40. The apparatus for managing the real estate unit as in claim 35 wherein the means for downloading a set of options further comprises means for providing a plurality of real estate unit identifiers as an option of the set of options.

41. The apparatus for managing the real estate unit as in claim 35 wherein the means for downloading a set of options further comprises means for providing a billing and cash entries selection for a real estate unit as an option of the set of options.

42. The apparatus for managing the real estate unit as in claim 35 wherein the means for downloading a set of options further comprises means for providing a reports selection as an option of the set of options.

43. The apparatus for managing the real estate unit as in claim 35 wherein the means for downloading a set of options further comprises means for providing a utilities selection as an option of the set of options.

44. The apparatus for managing the real estate unit as in claim 35 wherein the means for downloading a set of options further comprises means for providing a system selection as an option of the set of options.

45. Apparatus for managing a real estate unit from a remote location, such apparatus comprising:

a remote processor adapted to access a server from a remote location through a website of the server;

a website adapted to download a set of options regarding the managing of day-to-day operations directly related to use by an occupant of the real estate unit from the website to the remote location;

a cursor adapted to select at least one of the options;

an applet within the remote processor adapted to upload the selected option from the remote location to the server; and

an applications program adapted to execute the uploaded selected option by the server.

46. The apparatus for managing the real estate unit as in claim 45 wherein the application program further comprises a comparator adapted to compare an identifier of an authorized user and granting access to a set of real estate unit files when a match is found.

47. The apparatus for managing the real estate unit as in claim 45 further comprising a modem adapted to upload monetary data regarding the real estate unit from a designated financial institution to the server.

48. The apparatus for managing the real estate unit as in claim 47 further comprising a memory adapted to store the monetary data.
